The Golden Age of Deception

The baseless idea of a tranquil 'convivencia' [coined by Americo Castro] between Muslims, Jews, and Christians is shattered; there was no 'golden age'.

The Saudi's millionaire donations to American and British universities that 'blind' scholarship (I Timothy 6.12) and the collinear 'islamofauxphobia' weapon of uninformed and/or dangerous Sharia apologists is laid waste.

Liberals are now caught between feeling the sword of Islam or committing suicide by admitting moral inferiority of a major world religion.

Perceptive commentary by Moara: al-Andalus is a modern Western marketing campaign of the path, uplifting Islam while attacking 'Christian' roots of European foundation. With the fall of Communism and hatred of Christianity, Islam is really the only other game in town. Truly, Jesus was right:

“And if a kingdom be divided against itself, that kingdom cannot stand.” Mark 3.24
