Lest We Forget

This book is needed so the criminal enterprise of COVID-19 can't be memory-holed.

The author has receipts on mortality statistics pre and post vaccine rollout and the data is clear; the only change was introducing the vaccine, after which mortality skyrocketed, even in countries which had few 'COVID' deaths prior.

The sudden-death new stories especially of athletes (the healthiest people alive) has never been explained by mainstream media, who are simply hoping everybody will just forget and move on (sadly they are probably right!).

Foreword (pp. 1-3)

BlackRock manages \$10T in assets.

I) Healthy Young Athletes (pp. 4-31)

II) First, Is it True? (pp. 32-35)

Sudden death in athletes was studied 966 to 2004 and it was found 29 died p.a. on average. However, in December 2021 alone, there were 90 deaths.

III) Died Unexpectedly in Their Sleep... (pp. 32-45)

The Pfizer study of 13-18s found about half were asymptomatic of myocarditis.

IV) The Sad New Normal (pp. 46-51)

By April 2021, half of all eligible Americans had gotten the Warp Speed death jab.

Cardiologist Dr Venk Murthy: “People with myocarditis are at lifetime increased risk of cardiac complications. This can have profound consequences ... typically told to limit activity for several months, sometimes longer. This means no sports. Some kids are told not to carry books to school.” [p51]

V) VAERS (pp. 52-59)

VI) Young Medical Practitioners... (pp. 60-72)

In order to explain All-Cause Mortality increase after the quaxxines, scientists claim it was a spike in suicides due to lockdowns, or missed cancer screenings. However, the only factor which changed was the quaxxine rollout.

VII) Famous Young People... (pp. 73-83)

Mortality tables showed death moved to younger, healthier people forced to take the jab to work or study, however, the unemployed, self-employed, or retired had a choice.

VIII) For Children: A Smoking Gun (pp. 84-91)

IX) News You Likely Missed (pp. 92-107)

X) Disability (pp. 108-119)

3.5M more Americans are now disabled.

Afterword (pp. 120-203)

The MSM cites: trouble making appointments; fear of seeking treatment; delayed medical treatments; and, ‘Long COVID’ as causing all the excess mortality.
